📍 Teghari, Rajput Teghari, Murshidabad, WB-742213 | 📞 +91-6294180959 | ✉ parvezsakil259@gmail.com |  [linkedin.com/in/sakil-parvez](https://www.linkedin.com/in/sakil-parvez) |  [github.com/sakil62](https://github.com/sakil62)

## EXPERIENCE

### Prodigy InfoTech

Aug 2025 – Aug 2025

Software Development Intern

Remote

- Gained practical experience by collaborating with a development team on real-world projects, contributing to the complete software development lifecycle.
- Developed, tested, and deployed new application features while assisting in debugging and maintaining the existing codebase.
- Enhanced technical proficiency and problem-solving skills in a professional setting, applying modern software engineering practices.

## EDUCATION

### University of Kalyani, West Bengal

2024 – 2026

Master of Computer Applications (MCA)

CGPA: 7.87 (1st Sem)

### Kalyani Mahavidyalaya, West Bengal

2021 – 2024

B.Sc. in Computer Science

CGPA: 6.97

### Raghunathganj High School, WB

2020 – 2021

Higher Secondary (XII)

Percentage: 77.6%

### Sagardighi Thermal Power School, WB

2019

Secondary (X)

Percentage: 72.57%

## PROJECTS

### E-commerce Website

HTML, CSS, JavaScript, PHP

- Developed a multi-purpose web platform where users can buy, resell, and share rides.
- Designed responsive front-end with HTML/CSS/JS and dynamic back-end using PHP and MySQL.
- Implemented secure user authentication, product listings, and ride-sharing features.

### Voice Assistant - Anie

Python, Tkinter

- Designed and implemented a personal voice assistant that handles multiple tasks.
- Built using speech recognition and Python libraries with a user-friendly Tkinter GUI.

### Web Scraper

Python, BeautifulSoup, Requests

- Developed a Python script to automatically extract product data from e-commerce websites.
- Implemented logic using BeautifulSoup to parse HTML and handle various page structures.
- Stored the scraped data in a structured format (e.g., CSV) for analysis.

## TECHNICAL SKILLS

**Languages:** Python, C, C++, C#, JavaScript, SQL, PHP, Dart

**Web Technologies:** HTML, CSS, Bootstrap, Angular, ReactJS

**Tools:** Git, GitHub, VS Code

**Others:** LaTeX, Basic Machine Learning and AI concepts

## AREAS OF INTEREST

- Object Oriented Programming (OOP)
- Database Management Systems (DBMS)
- Artificial Intelligence & Machine Learning

## STRENGTHS

- Hard-working
- Quick Learner
- Passionate about Technology and Innovation

## HOBBIES

- Playing Football
- Photography
- Traveling
